Box 1: Title: What Are Clients Are Saying

(Picture 5)

Nick at Dicarlo Productions helped me out so much in my album process from the recording to the mixing and mastering. He then helped me get my myspace and web page started and even got my music up for sale online. The Album turned out great and it is all in Indian... Nick is very calm and easy to work with.. I felt very comfortable and it was a breeze to get my album done and complete.. I sent my album to India and it is selling incredibly out there... Thanks,
G. Chohan
